## Redesign of Vancomycin for Resistant Bacteria

报告人: Dale Boger 教授  
Scripps 研究所

### 报告人简介:

Prof. Dale Boger received Ph.D. degree (1980) at Harvard University, working with Prof. E. J. Corey. He is currently Richard and Alice Cramer professor of Chemistry at the Scripps Research Institute. Since 2012, he has served as the Chairman for the Department of Chemistry. Prof. Boger is internationally recognized for his work in organic synthesis, heterocyclic chemistry, natural products total synthesis and mechanistic studies on their biological activity, synthetic methodology development, and medicinal chemistry. He is the founding editor of *Biogranic and Medicinal Chemistry Letters*. Among his honors are members of American Academy of Arts and Sciences, and US National Academy of Sciences.
